## The Newest Attraction: BIG THUNDER Mountain Railroad

Disneyland is celebrating its 25th Birthday and Sears is joining the fun! We're offering your child and up to 3 other members of your immediate family the opportunity to celebrate first hand... to experience the excitement of an all expense paid weekend (incl. round trip air transportation) at the "Happiest Place On Earth," where you will ride Disneyland's newest and most thrilling attraction, "Big Thunder Mountain Railroad," and maybe even meet Winnie the Pooh, too!

**HERE'S HOW TO ENTER:** Children from 3 through 16 years of age can enter—and if they like to draw they will love this contest. Entrant should draw and color a picture of entrant and family having fun at Disneyland with any one or more of the famous Disney characters (Winnie-the-Pooh, Mickey Mouse, Goofy, Donald Duck or any of the others). Each drawing must be submitted on a sheet of paper no larger than 8½ by 11 inches. Only crayons, colored pencils, felt-tip pens or watercolor paints should be used. Drawing should be attached to a Sears official Disneyland Trip Entry Blank and mailed to:

Sears Family Trip to Disneyland Contest  
P. O. Box 9253  
Blair, Nebraska 68009

## HOW TO FIND YOUR PANTS SIZE

All measurements are for the Misses' figure

- Measure waist at smallest part of natural waistline ... find your waist size on chart
- Measure hips at fullest part ... select your hip shape by reading down on the chart until you find your measurement. If hip measurement is between sizes, select the smaller pants size for a snug, tight fit; select the next larger pants size for a relaxed, comfortable fit

Following the policy in effect since our founding in 1886, prices quoted in Sears catalogs do not include (unless stated otherwise) charges for handling and shipping of goods from our Catalog Merchandise Distribution Center to a Sears catalog selling unit for pick-up, or for delivery to your home. The shipping and handling charges may differ depending on method of shipping. Information on how shipping weights are determined and details on shipping and handling charges for shipping by USPS/UPS or non-Sears truck can be obtained from the yellow customer information pages of our Big Book. Specific details on charges for handling and shipping to a Sears catalog selling unit for pick-up or redelivery (if available) can be obtained from the unit, either at the counter or over the phone.

Prices in this catalog apply only to orders placed by mail, telephone, telegraph or placed in person at a Sears Catalog Sales Store, Authorized Catalog Sales Merchant or at a Catalog Sales Department in a Retail Store, Retail Catalog and Appliance Store or in a Sears Affiliated Store. Comparative pricing statements made in this catalog refer only to prices on merchandise offered nationwide through our own catalogs. Catalog merchandise prices and assortments may vary from those in our Retail Stores.

## ABOUT OUT-OF-STOCK MERCHANDISE

We make every effort to stock quantities of merchandise which we anticipate will be sufficient to fill orders until the expiration of this catalog. Since this catalog had to be prepared long before it reached you, and unexpected circumstances beyond our control can occur between preparation and expiration, occasionally an item you order may not be available when you order it. If an item you order should happen to be out-of-stock, here's what we'll do:

1. We will notify you as promptly as possible about the out-of-stock situation and give you our best information as to when a new supply is expected. If we don't anticipate being able to fill your order within 30 days, we will ask you to tell us whether you still want the item when it is again available. Naturally, if you tell us yes, we will charge you no more than the price in effect when you originally ordered.
2. At times we may send you an appropriate substitute item of equal or better value at the same price as your original order so that we may serve you faster. If the item is not satisfactory, you may, of course, return it for a full refund, including shipping and handling charges.
3. If an appropriate substitute for the out-of-stock item is not available and it appears that additional stock cannot be obtained from our supplier, our only alternative is to cancel your order and provide a full refund.

We are constantly working to avoid any out-of-stocks, and we sincerely regret any situation, however occasional, where circumstances prevent us from meeting our goal.

## COMMERCIAL QUANTITY ORDERS

The merchandise offered in all Sears catalogs is stocked in quantities intended to accommodate only individual or family needs. Therefore, we reserve the right to limit quantities in order to properly serve all of our customers. For details on commercial quantity orders, please contact Sears Contract Sales Department 733G, Sears Tower, Chicago, IL 60684.

## C.O.D. ORDERS

C.O.D. orders are accepted only for merchandise sent from a Catalog Merchandise Distribution Center to a Sears Unit. You may then pick up your order or arrange with your Sears unit for redelivery to your home (if available).

If you request that your order be sent directly to you via USPS/UPS or non-Sears truck, you must include a money order, check or use your Sears Credit Account.

Nor do we ship C.O.D. orders for merchandise cut, engraved, printed or made to order for merchandise shipped direct from factory or shipped to foreign countries or to anyone other than the person sending the order.

## SHIPPING INFORMATION:

"N", "N2", "NH" suffix (such as 9-1234N) means that this item, if shipped directly to your home, is sent by motor carrier. (See non-Sears truck information pages in our Big Book.) If you prefer, pickup your order at a Sears Catalog Selling Unit. Ask about pickup charges. Home delivery through a Sears unit may also be available, please inquire.

Parts of your order may be shipped from points other than your distribution center and may therefore arrive separately at different times.

## UNITED STATES POSTAL SERVICE (USPS)/

### UNITED PARCEL SERVICE (UPS) SHIPPING INFORMATION

Service and parcel size restrictions limit our use of both the United States Postal Service (USPS) and United Parcel Service (UPS). For parcels qualifying for either USPS or UPS shipping, Sears will determine which method to use. With either shipping system, the table of Sears Shipping and Handling Charges for Orders Shipped by USPS/UPS applies.

**USPS Restrictions**—If you are served by a First Class Post Office (check with your Postmaster or Carrier), the parcel maximum weight is 40 pounds and may not exceed 84 inches—length and girth combined. All other Post Offices may deliver parcels up to 70 pounds—not exceeding 100 in length and girth combined. "L" suffix items (as 3-84800L) cannot be shipped by USPS to a First Class Post Office for city delivery. To other Post Offices, "L" items weighing less than 15 pounds but measuring over 84 inches are charged at the 15 pound rate to your zone.

**UPS Restrictions**—The parcel maximum weight is 50 pounds and the maximum size is 108 inches—length and girth combined. This method of shipping is not available to P.O. Box addresses, nor is it available on shipments within certain states.

To determine shipping and handling charges for USPS/UPS parcels, first find your Parcel Zone in the table below. Next, add the weights of the items that do not have a "C" or "L" suffix and find the charge for the total weight in the table below for your Parcel Zone. Figure separate charges for the weight of each item ending with "C" or "L" since each must be shipped separately.

On cash orders include enough money for shipping and handling with your order since we must prepay parcels.

On Credit Orders, Sears computes charges and adds them to your account.

You may always pay more than the required minimum monthly payment. The minimum payment will change only if charges to the account increase the balance to a new high. The minimum payment will not decrease until the new balance is paid in full.

- Finance Charge.** If I do not pay the entire New Balance within 30 days of the monthly billing date, a Finance Charge will be added to the account for the current monthly billing period. The **FINANCE CHARGE** will be either a minimum of 50¢ if the **AVERAGE DAILY BALANCE** is \$33.00 or less, or a periodic rate of 1.5% per month (**ANNUAL PERCENTAGE RATE** of 1.8%) on the first \$500.00 of the **AVERAGE DAILY BALANCE**, and a periodic rate of 1% per month (**ANNUAL PERCENTAGE RATE** of 1.2%) on any part of the **AVERAGE DAILY BALANCE** over \$500.00.
- How to Determine the Average Daily Balance.** Sears will determine each day's outstanding balance in the monthly billing period and divide the total of these daily balances by the number of days in the monthly billing period. The result is the Average Daily Balance. Sears will include the current month's charges, but will not include any unpaid finance or insurance charge(s), when determining a daily balance. All payments, credits for current purchases returned, and other credits will be subtracted from the previous day's balance.
- Failure to Make Minimum Payment.** If I do not make at least the minimum required monthly payment when due, Sears may declare my entire balance immediately due and payable.
- Security Interest in Goods.** Sears has a security interest under the Uniform Commercial Code in all merchandise charged to the account. If I do not make payments as agreed, the security interest allows Sears to repossess only the merchandise which has not been paid in full. I am responsible for any loss or damage to the merchandise until the price is fully paid. Any payments I make will first be used to pay any unpaid Insurance or Finance Charge(s), and then to pay for the earliest charges on the account. If more than one item is charged on the same date, my payment will apply first to the lowest priced item.

- Change of Terms—Cancellation.** Sears has the right to change any term or part of this agreement by sending me a written notice. Sears also has the right to cancel this agreement as it relates to future purchases. I agree to return all credit cards to Sears upon notice of such cancellation.
- Change of Residence.** If I change my residence, I will inform Sears. Sears has the right to transfer the account to a Sears unit servicing my new residence. When Sears notifies me that the account has been transferred, the account, including the existing balance, shall be governed by the credit terms which apply to Sears credit customers in my State of residence, including the **FINANCE CHARGE** and the method of determining the balance upon which the **FINANCE CHARGE** is based. Sears will provide me with a written disclosure of the new credit terms which apply to a new State of residence.
- Authorized Buyers.** This agreement controls all charges made on the account by me or any person I authorize to use the account.
- Credit Investigation and Disclosures.** Sears has the right to investigate my credit, employment and income records, and has the right to verify my credit references and to report the way I pay this account to credit bureaus and other interested parties.
- Waiver of Lien on Residence.** Sears gives up any right to retain or acquire any lien which Sears might be automatically entitled to by law on real estate which I use as my principal residence. This does not apply to a lien created by a court judgment or acquired by a filing as provided by statute.
- Account Subject to Approval of Sears Credit Department.** This agreement is subject to the approval of Sears Credit Sales Department. The agreement will be considered approved when Sears delivers a credit card or other notice of approval to me.
- Protection of Buyer's Rights.** The Notice below, which is required by law, is intended to preserve any claim or right I have against Sears if my account is ever sold or transferred to another creditor.

**NOTICE: ANY HOLDER OF THIS CONSUMER CREDIT CONTRACT IS SUBJECT TO ALL CLAIMS AND DEFENSES WHICH THE DEBTOR COULD ASSERT AGAINST THE SELLER OF THE GOODS OR SERVICES OBTAINED PURSUANT HERETO OR WITH THE PROCEEDS HEREOF. RECOVERY HEREUNDER BY THE DEBTOR SHALL NOT EXCEED AMOUNTS PAID BY THE DEBTOR HEREUNDER.**

- Notices Required by State law.

**NOTICE TO BUYER: 1. DO NOT SIGN THIS CREDIT AGREEMENT BEFORE YOU READ IT OR IF IT CONTAINS ANY BLANK SPACE. 2. YOU ARE ENTITLED TO A COMPLETELY FILLED IN COPY OF THIS CREDIT AGREEMENT. KEEP IT TO PROTECT YOUR LEGAL RIGHTS. 3. YOU HAVE THE RIGHT TO PAY THE ENTIRE BALANCE AT ANY TIME.**

## Countertop Convection Oven

roasts more quickly,  
broils with less smoke  
and spatter, bakes at  
lower temperatures  
than conventional ovens

A silent fan circulates the heat so that every part of the oven chamber is uniformly hot, sealing in the natural juices.

The result is evenly cooked food. You can keep 2 even 3 pies at once in the time it takes to bake 1 pie in an ordinary oven and at a lower temperature.

Enjoy the taste of fresh fruits and vegetables without concern for spoilage; dehydrate them in the Convection Oven with 6 stainless steel shelves included with the oven.

### Reversible Oven/Broiler with Continuous-cleaning

**FULL ONE-YEAR WARRANTY ON TABLE APPLIANCES:** For one year from the date of purchase, Sears will replace these appliances free of charge if defective in material or workmanship. Warranty service is available by returning the product to the nearest Sears store throughout the United States. This warranty gives you specific legal rights and you may also have other rights which vary from state to state.

The concept of convection cooking is not new... chefs and fine restaurants have used convection ovens for years. There are good reasons for the convection oven's popularity with professional cooks: food looks and tastes better when cooked in a convection oven. Also, with most types of cooking, food can be cooked at lower temperatures and for shorter periods of time than with an ordinary oven. This is all possible because of convection cooking's unique method of heat distribution.

**HOW IT WORKS.** In an ordinary oven the heated air is still. The Sears Convection Oven has a silent fan which circulates the heated air throughout the oven chamber. The air is in constant motion, cooking the food uniformly from all sides and sealing in the natural juices. As a result, cooking times are generally shorter and temperatures lower (so your kitchen stays cooler). Turkeys don't need basting and there is virtually no spattering. Frozen foods can be cooked without defrosting.

**CONSTR.** Oven chamber of porcelainized steel will not fade or discolor. Continuous-cleaning interior. Tempered safety glass door is dishwasher safe. 2 adjustable racks and a porcelainized drip pan with rack will pull out halfway for access to food but will not accidentally pull out all the way. Timer adjustable up to 4 hours. Buzzer sounds at end of selected time period. Two indicator lights: power on and heat on. Filter traps excess fats and solids and is dishwasher cleanable. Exterior, 17½x18½x13½ in. high; interior, 15½x9x11½ in. high. Total weight is only 20 pounds.

**TEMP. CONTROL.** Adjustable from 150° to 450°F. "Stay On" position for slow cooking and dehydrating.

**ELEC. INFO.** Uses standard household current. UL listed. 110-120-volt, 60-Hertz AC. 5½-foot cord.

## Bi-fold Glass Door Firescreens can reduce air flow up the chimney by 70%\*

You lose a substantial amount of heat up the chimney because you must keep the damper open while burning embers die. Sears lab tests on simulated fireplace fronts show that keeping doors closed at this time cuts air flow up the chimney by 70%\*. Keep doors open while you enjoy a crackling fire; close them when you want embers to die while keeping warm air in the room. Retire feeling secure that these doors help keep sparks from jumping out of fireplace.

**Free Spirit  
Bicycle Warranty**

**FULL 30-DAY WARRANTY ON MECHANICAL ADJUSTMENTS** For 30 days from the date of purchase, when proper assembly and maintenance procedures in the Owner's Manual are followed, Sears will perform free of charge any mechanical adjustments that are necessary for the proper operation of the bike when used in a normal manner (which does not include use with a motor or for motocross).

**FULL 1-YEAR WARRANTY ON PARTS** For 1 year from the date of purchase, Sears will, free of charge, repair or replace and install a replacement part for any defective part of a bicycle when used in a normal manner (which does not include use with a motor or for motocross). If bike is used for commercial or rental purposes, this warranty applies for only 30 days from date of purchase.

**FULL WARRANTY ON FRAME FOR USABLE LIFE OF BICYCLE** For the usable life of a bicycle, Sears will replace the frame, free of charge, should it fail at any weld point when bicycle has not been abused and when it has been used in a normal manner (which does not include use with a motor or for motocross). If bicycle is used for commercial or rental purposes, this warranty applies for only 30 days from the date of purchase. Warranty service is available by simply returning the bike to the nearest Sears store throughout the United States. This warranty gives you specific legal rights and you may also have other rights which vary from state to state.

**Gear Ratio, Assembly and  
How-to-Measure Notes**

**SELECT THE GEAR RATIO RANGE THAT SUITS YOUR NEEDS** Gear ratios determine the distance your bike will travel per pedal revolution. The lower number is the easiest to pedal gear, used for starting and steep inclines; the higher number is the hardest to pedal gear, giving you the greatest distance per pedal revolution and the most speed. 10-speed bikes are suited to longer rides because they have wider ranges and greater gear selection than 3-speed bikes and require less pedaling effort on inclines. 3-speed bikes are more suited to short tours and lesser inclines.

**ASSEMBLY NOTE** Sears bicycles sent partially assembled; assembly instructions included. Tools required for assembly are 2 open ended adjustable wrenches, 1 philips-type screwdriver and 1 blade-type screwdriver. Most Sears Retail Stores and many Catalog Stores will arrange for assembly of bicycle for a small charge only.

**HOW-TO-MEASURE** To determine your leg length, measure (wearing shoes you wear cycling) distance from your crotch to the floor. Make sure the bike you order is available in a size with a recommended length that corresponds to your leg length (see chart below). Sears bikes may be adjusted for slightly longer legs by raising the height of seat and handlebar.

We all know that children's play time is fun for them. That's obvious by the sheer joy in their faces. But play time is also an excellent time for learning. Children, by the simple act of playing with toys, discover sights and sounds, are challenged and taught, stimulated, fascinated and rewarded. Sears offers you a large selection of toys to do just that. So take it from Pooh, play time teaches, too.

So easy to buy when you just use the phone.

# You can race them because each operates on a different frequency!

Set your car to go fast or slow by hand, then use the radio control to turn right, left or shift into reverse. Never before has Sears offered all these features at such a low price!

Only \$18<sup>99</sup> each without batteries

It's Porsche vs. Corvette — a classic confrontation. 12 hours — Sebring — 24 hours at Daytona — this afternoon in your house or driveway! Radio-controlled Can-Am Corvette and Porsche 917K each "hear" a different radio frequency so you and a friend can have actual races. Lay out a course with the five pylons included with each car and then use actual racing maneuvers to flash past the finish line in first.

Slingshot around your opponent on a corner and then blast down the straightaway in an endurance race. Make tight-radius turns through pylons in an auto cross.

## REALISTIC DETAILS LIKE THOSE SEEN AT LeMANS

Both cars have mag-type wheels with fat racing-style tires, colorful racing decals and low body profiles that help them hug the ground. The Porsche has stabilizing fins and realistic-looking engine air intakes in back. The Corvette has aerodynamically widened rear bodywork and a front air dam.

## BROADCAST YOUR RACING COMMANDS

The radio-racer remote control transmitter has a streamlined design for easy handling. As the car moves forward, a light touch on the racing-style steering wheel turns it left or right. Touch a button and the car shifts into reverse to avoid crack-ups. Transmits up to 30 ft. indoors, 60 ft. outdoors.

Cars are made of plastic with metal parts and measure 7½ inches long. Radio-control transmitter is plastic with spring antenna. Imported.

ORDERING INFORMATION: Preassembled. Each car requires one 9-volt and 2 "AA" batteries, each transmitter one 9-volt battery, not included. Order batteries below or rechargeable batteries, charger on opposite page. See Note, opp. pg.

# Electric Sportavia

... the totally electric, ready-to-fly, radio-controlled plane

With Electric Sportavia there's no "fueling" around! Why fuss with gas or waste valuable flying time trying to get an engine started? Just flip a switch to start Sportavia's powerful electric motor and you're ready for take-off with the first totally electric, ready-to-fly radio-controlled plane ever offered by Sears!

## USE PILOTING SKILLS FOR EXTENDED FLIGHT

Over three minutes of powered flight lets you take Sportavia up to soaring height. After that, your own skill determines how long you stay up. With practice, a good pilot can manage up to 20 minutes of gliding flight.

A giant, 70-inch wingspan produces plenty of lift, while the two-channel radio-control allows use of both rudder and elevator to give you the fine control needed for performing tricky maneuvers. The radio control's digital-proportional sticks help add realism to your flight... use a light touch for fine course adjustments or a "heavy hand" to bank, dive or roll. Sportavia has the capability to perform almost any maneuver you care to try!

## READY TO FLY

No building or gluing is required. Sportavia is made of molded polystyrene foam and plastic with factory-decorated finish. Wings, tail group and landing gear remove for convenient transportation. Snap-in radio installation.

Includes rechargeable nickel-cadmium battery pack, battery charger, plugs into 12-v. auto cigarette lighter receptacle, recharges in about 20 min. (order replacement nickel-cadmium battery pack below to minimize time between flights).

Radio (imported) requires 12 "AA" alkaline batts. (order from opp. p.). Operation of Sportavia requires class "C" FCC license (avail. free upon request from FCC). Ship. partially assembled. FOR AGES 14 years or older.

ORDERING INFO: See warranty note, p. 648.

# Video Arcade™ Cartridge System

**Turns any TV set  
into a family  
game center**

**\$154<sup>95</sup>**

In our 1977 Wish Book, Sears introduced a new, programmable video game called Video Arcade. It was back then, and remains today, one of the most popular in the world. The reason is simple. With Video Arcade you can choose from such a large variety of game cartridges that your family should always enjoy playing with it.

## IT WORKS LIKE A MINIATURE COMPUTER

The heart of this system is a micro-processor. By simply inserting a game cartridge, you automatically program the system to play a new series of exciting video games . . . in vivid color on color TV sets, action sound, on-screen scoring

There's even a special skill-option control with novice and expert settings for each player so the games can be made more challenging as your skills increase.

## INCLUDES TARGET FUN GAME CARTRIDGE

This cartridge lets you choose from seven different playfields and 27 different games. It turns your TV set into a shooting gallery of fun as you try to hit the clowns, ducks and rabbits darting across the screen. Different objects have different point values and the winner is the first player to score 99 points. Other games included in this cartridge are Anti-aircraft, Torpedo, Missile,

Bomber and Missile vs. Bomber. And each of these can be made more challenging by selecting versions using steerable missiles, barricades or smaller missiles. You can even play against the built-in robot.

## EVERYTHING'S INCLUDED BUT THE TV SET

The streamlined, impact resistant plastic console is 14 by 9½ by 3¾ inches high. It attaches easily to your TV antenna terminals with the special game switch that's included. You get four plug-in controls to play the various games: two joystick controls with firing button and two paddle controls (order extra set of paddle controls sold separately at right for those cartridges that have 3 or

4 player capability). Requires no batteries . . . operates on a 9-volt power supply with 16-foot cord. Just plug it in to any 110-v. AC outlet.

# for you and your family

## The new Atari 400™ Personal Computer System can teach, play games and help organize your life —but it doesn't take a genius to use it

For many people a computer is one of those exotic "number crunchers" that calculates satellite orbits or audits tax returns — the blink of an eye. Until now, the idea of actually owning and operating one of the things even a small child didn't seem to be practical or even possible for the average person.

The Atari 400™ personal computer system lets a novice begin using the computer for exciting, educational and useful purposes by simply placing pre-programmed cartridges (sold separately) into the console and pressing a few buttons. Of course, the system is also designed to keep on challenging you for years to come because it is a powerful general purpose computer you can program yourself.

**LIKE EVERY  
COMPUTER  
THIS ONE  
PERFORMS MANY  
MATHEMATICAL  
FUNCTIONS WITH  
UNCANNY SPEED**

Inside the sleek computer console there's a powerful electronic brain and memory that can store and manipulate over 8000 bytes ("8K" in computer lingo) of information at a time. Among other things, this power can be used to perform a wide variety of arithmetic and advanced mathematical computations with numbers up to 10 digits long. In a more practical vein, you can use the computer's capacity to store names, numbers, addresses, even recipes then recall and sort them in an infinite variety of ways. But that's not all. Look what can be done using the optional cartridges and cassettes sold on the facing page.

### IT CAN ALSO BE A TEACHING MACHINE

By inserting the Educational Cartridge into the console you've programmed the brain to teach a variety of courses.

### TAKE A COURSE IN SOCIOLOGY

Use one of the Educational Cassettes with the Program Recorder (sold on facing page) and the system automatically begins teaching by using a printed text, spoken voice and simple graphics. As the lesson progresses the computer tests you by asking multiple-choice questions. Answer questions by pushing keys on the console. If you answer incorrectly, the computer lets you know. If you are correct, the computer continues the lesson.

In years to come additional cassettes will be offered on subjects from auto mechanics to foreign languages. Like having a kindergarten thru university teacher in your living room.

### PLAY 1, 2, 3 OR 4-MAN BASKETBALL

### TRY 1 TO 4-PLAYER SUPER BREAKOUT

### PLAY GAMES MADE FAMOUS BY ATARI

The Game Cartridges make full use of the computer's ability in additively action, color and sound as well as a wide variety of game options to challenge and entertain you.

# Instant Translator

Interprets words and phrases from one language to another at the touch of a few buttons . . . and it's a calculator and metric definer, too

Ordering an omelet in Yokohama could be a problem if you don't speak a word of Japanese. Now there's a way for you to communicate clearly in Japanese as well as German, French, Italian or Spanish—without saying a word—using this electronic interpreter and optional language capsules.

## IT'S SO SIMPLE TO USE WHEN YOU TRAVEL

To translate words just enter them in English, press a button and see the foreign words flash on the screen in big blue letters. To help speed a "conversation", fifty common full and partial phrases are programmed into the unit and each is listed on its back along with a code letter. Tapping the phrase key and that code letter displays the entire phrase, instantly.

PRESS **[PHR]** TWICE PLUS LETTER FOR PARTIAL PHRASE

A Do you speak	L I would like
B How do you say	M How much

50 common phrases are programmed into the unit

A 1200-word English capsule is incl., there's space for two more capsules within the unit — you can even translate between foreign languages.

## IT'S A GREAT LANGUAGE TEACHER

The computer can flash all of the words within its memory by category (for instance, all the words related to travel like "car", "fare", "ticket", etc.), by their frequency of use or alphabetically. It even helps correct misspelling and can clear-up double meanings (by asking whether the word "watch" means "to see" or "a clock", for example).

When long phrases won't fit on the 16-character display, they move across the screen (you can even control speed of movement). Plastic case: 6 1/4 x 3 1/2 x 1 1/2 in. high. Vinyl carrying case. # Do you believe in lucky stars?

Believe in 'em or not, the new Zodiac™ Astrology Computer offers astral advice using modern electronics

With this fascinating electronic "brain" and the Zodiac™ Manual edited by world famous astrologer Sidney Omarr, you can chart horoscopes for anyone simply by knowing his or her birthdate, time and place

Whether you're a curious skeptic or a true believer, the Zodiac™ Astrology Computer can tell you which house your stars are moving into while you relax at home.

This electronic star gazer offers a two-edged advantage over other methods of determining your horoscope. It provides a "reading" that's far more personalized than horoscopes in the newspaper because you enter your own (or a friend's) day, time and place of birth into the computer's brain. And you won't have to travel to a professional astrologer for a daily survey of the comings and goings of cosmic influences.

## INTRODUCING ZODIAC

Zodiac™, The Astrology Computer, is just the thing for people who believe that their lives are influenced by the stars. When used in conjunction with the Zodiac™ Manual, Zodiac™ can help you learn more about yourself, your friends, your past and your future.

## ZODIAC™ MANUAL

The Zodiac™ Manual is a complete instruction and source book for Zodiac™, The Astrology Computer. The editor is well-known astrologer Sidney Omarr who is featured on his own radio program and in his daily astrology column which is published in newspapers throughout the world.

## WHAT ZODIAC™ CAN DO FOR YOU

The Zodiac™ computer, when used with the Zodiac™ Manual, can furnish you with three different types of star-struck information.

In the Horoscope Mode, you can get a computer readout of the planetary positions at the time of your birth and a list of corresponding personality characteristics. With this information, plus the additional data found in the manual, you can chart anyone's horoscope simply by knowing the date, time and place of his or her birth.

In the Daily Preview Mode, Zodiac™ can clue you in on how the stars appear for any day you have in mind—past, present or future.

In the Advice Mode, the Zodiac™ computer can offer its opinion about some of the many questions you ask yourself each day: "Should I travel today?", "Is this a good time to start saving money or to spend it?", "Should I see my former boyfriend tonight?"

## IT'S SIMPLE TO GET YOUR EXACT HOROSCOPE

As sophisticated as the computer sounds, the Zodiac™ is simple to use. To chart a horoscope, look in the manual to find the proper codes for the date and place of your birth and enter them in the computer. Next, punch in the time of your birth. Then, watch the lights and listen to the electronic sounds as Zodiac™ goes to work.

Code numbers will appear on the digital readout. Copy these down on the horoscope form provided and then match them up with the personality characteristics and assessments listed in the manual. It's that easy.

It's just as simple to get a daily preview or the computer's answer to a question. Just follow the directions in the manual.

Want to dig deeper? The Zodiac™ Manual can tell you how to work out more detailed astrological information.

Plastic unit measures 7x2 inches high. Manual and astrological charts included.

ORDERING INFORMATION: Uses two 9-volt alkaline batteries or AC adapter (not included).

# It's a computerized bridge club in a box!

Built-in computer is so powerful it lets this electronic marvel play bridge as your partner, your opponents or both . . . or you can watch how the game "outsmarts" itself in fully automatic play

As each computerized player asks to see its hand, pass its cards—face down, one at a time—over the optical scanner and then place them in order on one of the three green felt playing fields provided.

In this manner, "everyone" sees only his own cards.

STAYMAN, GERBER AND BLACKWOOD PLUS SIX OTHERS

Bridge Challenger® automatically uses Stayman, Gerber and Blackwood. Assign each pair of partners one of the six additional conventions or variants that the machine knows. Preferred Minor, Strong Two Club and Weak One No-trump Openers, Jacoby Transfers, the Baron Convention and the possibility of specifying the strength of the 2NT reply following a suit opener. Follow your favorite conventions while entering your bids; the machine will automatically display its own bids on its turns, using the convention you selected for it. When bidding is completed, the screen displays the contract and play begins.

COMPUTERIZED DUPLICATE PLAY

Completing the contract does not have to end play. You also have the option to replay the hand. Just designate any new combination of human and machine players for full duplicate play. And if you wonder how the computer would have done if it had bid "three no trump" instead of "two spades," just override the electronic player's bid and substitute your own.

Bridge Challenger's 176,512 memory bits allow popular defensive play, finesse and squeezes. It rejects illegal bids, displays reneges, lets you review bidding (and the last trick played) and indicates vulnerability . . . all instantaneously.

100% solid state with solid hardwood housing 13 1/2 x 8 1/2 x 1 1/2 in. high. Comes with 2 decks of custom playing cards, carrying case, 9 volt adapter and 6-ft. cord for use with 110-v., 60-Hz. AC.

AGES: Adult. 1 or more players.

Bridge Challenger® is always ready for a game, whether you're short a player or your bridge club is curious to see how a computer would have played their hands. Just tell the machine which positions to play (N, E, S, W), then deal out the custom cards as you normally would.

# Computerized Racing

Data Race™ Control Center and Sound Tower with Slot Track Racing Set  
**\$64.99**  
 without batteries

## Thrill to the sound and split-second timing of big-time racing on the mini-car circuit with the electronic AFX® Data Race™ Control Center and Sound Tower

Strategy is the name of the game. Deciding how many pit stops to make, how much fuel you'll use, or how hard to push your machine can make the difference between taking the "cup" or losing the race. Now, there's a mini-car racing system that puts your strategic skills to the test.

### PROGRAM A SHORT SPRINT OR A "500"

Enter the number of laps for a race into the Control Center computer. Big blue LED displays for each racer click off the laps as the cars pass through the start/finish gate.

### DECIDE HOW MUCH FUEL TO TAKE ON

Adding fuel during the race takes precious time. If you put too many "gallons" of fuel into your car your competitor will be making tracks while you're at the pump. Take on too few "gallons" and you'll be forced into a time-consuming pit stop because the computer automatically stops counting laps when your racer "runs dry". The digital read-out indicates how many "gallons" you've added.

### GENTLEMEN, START YOUR ENGINES

With the Sound Tower you'll hear the sounds of a real race in progress. The Control Center's LED indicators actually count down the start of the race. All thru the race you'll hear the roar of big engines on the move. The computer sounds a victory "cheer" and shows the crowd which car won.

**\$47.97**

without batteries

Each game is one quarter of the fun, but you'll never run out of quarters while playing computer games in your own arcade! # Price Breakthrough

Never before have we offered hand-held electronic games that are so much fun to play and so difficult to master yet are priced so low

## Your choice of Electronic Numbers Game or Follow Me

Each **\$14.99** without battery or adapter

These aren't the first or the only hand-held computer games that challenge your memory and powers of deduction. There are others on the market that play virtually the same way as our Follow Me and Electronic Numbers Game. What makes these so special is our \$14.99 price. Compare this price, compare the features and we're sure you'll agree that these are exceptional values.

### Electronic Numbers Game

Here's the computer game that challenges you to break a secret code while the computer gives you the clues and keeps score.

### Electronic Follow Me

Probably no other type of hand-held electronic game is so easy to play yet so difficult to master. And that's why this game has become so popular with children and adults of all ages.

#### MATCH YOUR MEMORY AGAINST THE COMPUTER

Follow Me will play a random sequence of lights and sounds. All you have to do is repeat them by pressing the correct "Follow Me" buttons. Sound easy? Well it is for the first few series. But then each sequence becomes progressively longer and faster, too. If your memory is good enough you're rewarded with a victory tune—but if it isn't, Follow Me will signal loud and clear that you made a mistake.

#### THERE ARE 3 GAME VARIATIONS AND FOUR SKILL LEVELS

You can let the computer program the sequence of sounds and lights. Or you can set up the sequence for your opponent to follow. The computer remembers what has been the longest sequence followed correctly and will replay it at just a touch of a button. It will also recall the last sequence played whenever you wish. Even a group can have fun with Follow Me. In this version each player has a different color and remains in the game as long as he or she plays that color at the proper times. Make a mistake and you and your color are out of the game. The different skill levels make the game more challenging by playing longer and longer sequences to follow.

Follow Me is housed in a plastic case that's 5 inches in diameter, 2 inches high.

FOR AGES: 6 years to adult.

ORDER INFO FOR FOLLOW ME: Instr. incl. Requires one alkaline 9-v. battery or AC Adapter, not incl. Order battery on p. 666.

Miniature and sub-miniature adjustable plugs, 9-volt battery clip tip included. 6-foot cord. Not recommended for children under 8.

49 C 65244—Shpg. wt. 6 oz. .... \$4.99

#### IT'S ENTERTAINING AND EDUCATIONAL

Set secret 4-digit code for another player to solve or let the computer set one for you. Then begin testing numbers in different sequences. After each try the computer tells which are correct and in the right sequence until code has been broken.

#### WHO'S THE MASTERMIND IN YOUR FAMILY?

Play the Numbers Game by yourself. Or you can double the fun playing against someone else. In this version you're not only testing your code-breaking skills but also your ability to develop codes that are difficult to solve. You can even play with a group. Plastic case measures 5½ by 3½ by 1 in. high. Includes vinyl carry case, scorepad.

FOR AGES: 8 years to adult.
